

2026 Fort Stewart-Hunter Army Airfield Turkey Harvest Record Information

All persons hunting eastern wild turkey on the installation must possess a Fort Stewart-Hunter Army Airfield Turkey Harvest Record in addition to the Georgia WRD Big Game Harvest Record.

Harvest Records must be ordered separately from your hunting/combination permit through the iSportsman portal.

You have the option of having your harvest record mailed to your home or you can pick up your harvest record at our office.

Please Note

Due to weekends, Federal holidays, and military training holidays, it could take 7-10 business days to receive your harvest record in the mail. Plan accordingly.

If you would like to pick up your harvest record, please allow 24 hours before arriving to get your harvest record. Our current staffing is limited, and our fieldwork is a priority, unfortunately we cannot produce harvest records on demand.

Please verify all your iSportsman contact information (mailing address, phone number, etc.) is correct prior to ordering your harvest record.

You will only be issued one harvest record. If you lose your harvest record or it is mailed to the wrong address, you will be required to get approval from Conservation Law Enforcement prior to receiving a new harvest record.

If approved, duplicate harvest records will not be mailed. **You will be required to pick up duplicate harvest records at the Fish & Wildlife office.**
